**DETAILED ACTION**

***Informal Examiner's Amendment***

1. An informal examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

Claim 1. (Thrice Amended) A device for the advancement of bars in automatic loaders provided with a loading system for a plurality of bars, with a mechanism for the individual release of said bars, and with a pusher [adapted to connect with]having a collet which is adapted to receive [the]a rear end of [a]the released bar, comprising: a guiding [means]mechanism, whereon supporting elements to support [a]the bar released from said system, and a carriage provided with grip elements for said bar, are slideable, said carriage being actuated between an initial position, where said grip elements are actuated so as to grip the bar deposited on said supporting element, and a final position, where said bar is released by said grip elements, after inserting the bar in the collet, and is inserted in a

spindle of an automatic lathe, said pusher being supported so as to translate; and means for locking and actuating said pusher between an offset position and a position where said pusher is aligned with the bar deposited on said supporting elements when said carriage is in the final position.

***Allowable Subject Matter***

3. Claims 1-34 are allowed.

4. The following is an examiner's statement of reasons for allowance: as set forth in the previous Office Action, Werkmeister et al. (3,582,000) is the closest cited reference. However, Werkmeister et al. does not teach or fairly suggested that the supporting elements to support a bar released from the system are slidable (in claim 1); and the bar pusher being actuatable and lockable between an offset position and a position where the bar pusher is aligned with the bar deposited on the first guide when the carriage is in the final position (in claim 8, and claims 19 and 27 recite the corresponding limitations). Further the combination of the above limitations

with all of the other limitations in the respective independent claims is not obvious.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
